DETAILED ACTION

This is a response to the Applicants' amendment filed 08/05/2004. In virtue of this amendment:

- Claims 1-16 are originally filed;
- Claims 17-32 are newly added; and thus,
- Claims 1-32 are now presented in the instant application.

Allowable Subject Matter

1. Claims 1-32 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

Prior art fails to disclose or fairly suggest:

- A microwave powered lamp comprising a detector disposed within the housing or the waveguide, which detects the microwaves which are not coupled to the bulb during operation of the magnetron and outputs a signal indicative of a level of received microwaves, and a magnetron control, coupled to the detector, which causes the magnetron to be turned off when a level of the signal indicates the level of received microwaves exceeds a threshold, indicative of the bulb not being ignited, in combination with the remaining claimed limitations as called for in independent claim 1 (claims 2-8 and 17-24 are also allowed since they are dependent on claim 1); and
- A method of control of a microwave powered lamp comprising the steps of (1) providing a signal from the detector indicative of a level of detected microwaves, and

Art Unit: 2821

(2) the magnetron control reduces power to the magnetron when a level of the signal indicates the level of the detected microwaves exceeds a threshold indicative of the bulb not being ignited, in combination with the remaining claimed limitations as called for in independent claim 9 (claims 10-16 and 25-32 are also allowed since they are dependent on claim 9).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Citation of relevant prior art

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Prior art Kirkpatrick et al. (U.S. Patent No. 6,617,806) discloses a high brightness microwave lamp.
